ENGLISH LANGUAGE TRAINING PROGRAMME

MY ENGLISH COURSE IN LONDON.

I chose the United Kingdom and London for this two-week course because I hadn't been there and I wanted to have a complete immersion in the English culture. So could visit many amazing buildings, museums, palaces, gardens, etc in just a few days. This trip has been an unforgettable experience, and I can remember every minute of it.

My family and I travelled for over two hours on a plane in order to get to Gatwick Airport, UK. It was a short time on a plane. We were all really excited. We arrived at London and took a two-days tour of the city. We visited the British Museum, the most important museum in UK. We also walked up and down the main avenues in London, where we could see some gorgeous buildings.

The next days we started our course. I shared my class with people from various countries such as Oman, Kazakhstan, Italy, Saudi Arabia, Belarus and Brazil. The teachers were great professionals who made the classes enjoyable and fun. It was exciting to meet people from around the word and see that they are sometimes very similar to us. After our classes, we had lunch at school and activities in the afternoon visiting emblematic places of the city, my favourite place in the whole city was Saint Paul's Cathedral. It is not only beautiful but also grandiose and austere at the same time.

The most delicious activity was to see a concert in the Royal Albert Hall near Hyde Park. The BBC PROMS let us enjoy a great orchestra playing with the amazing choir of the city of London.

To sum up, it was a broad experience that allowed us to learn English and discover places and people.
