**MY EXPERIENCE IN EDINBURGH**

I still get nostalgic thinking about the days I've spent this summer in Edinburgh.

This summer I had the opportunity to participate in the ERASMUS+ project in which our high school participates, so I have been able to enjoy 2 weeks in Edinburgh, and maybe you wonder what I have done there. Let me tell you...

I've participated in an intensive 2-week English course with other international teachers. We started classes at 9:00 in the morning and finished at 13:00 PM, although Tuesdays and Thursdays we had another two hours of class in the afternoon, these were my favorites! In these two hours the teacher taught us things about the culture of the country and its traditions, which I found fascinating.

In addition, I've been able to do many more things... I've visited all the corners of the city, its streets, the castle, the markets, the museums... and I've been very surprised by the joy of the people and their kindness. Also it was sunny almost every day!

To conclude, I would like to share with you that I feel very fortunate to live this experience and enjoy one of the best days of the summer.
