Thanks to Erasmus funding I was able to take this course in Edinburg in which I improved my linguistic skills thanks to group work and participatory workshops.

The Group lessons component gave me the chance to meet people from all over the world who are at various stages of their career. The course provided me confidence in communicating in an English speaking environment.

The course was taught in weekly modules focusing on speaking and listening covering essential grammar, vocabulary, pronunciation, and common English phrases. I improved my ability to communicate in English while experiencing the vibrancy and excitement of Edinburgh such as pronunciation, rhythm, intonation and stress, idiomatic and colloquial language and phrasal verbs

Telling a story – describing and linking words and expressions and discussions on UK culture and current affairs.

The Spoken Performance component concentrated me on speaking and listening skills as well as fluency in the afternoon sessions. I expanded my vocabulary and improve my grammar
